

Pilot action 8 – PA8

**Networking for development of
zero energy buildings**

**PA8 leader:
Marshal's Office of
Lower Silesia, PP13**

This project is implemented through the CENTRAL EUROPE Programme co-financed by the ERDF.

**EUROPEAN UNION
EUROPEAN REGIONAL
DEVELOPMENT FUND**

Networking for development of zero energy buildings

Overall costs: € 33.500,00

Duration: 10/2013 – 04/2014

Partners:

- Marshal's Office of Lower Silesian Voivodeship – Leader,
- National Cluster Association – Moravian – Silesian Region,
- SPIRIT Slovenia, Public agency – Ljubljana,
- Cluster AT+R – Kosice region,
- National Agency for Development of Small and Medium Enterprises.

Addressed policy instrument/activities	Green economy	Technology transfer	Internationalization	
Cross clustering	X	X	X	
Networking or platforms	X	X	X	
Benchmarking	X	X	X	
Regional funding/support programs	X	X	X	
Training programs	X	X		

Actors of pilot action (app. 45):

- Clusters,
- Companies,
- R&D actors,
- University,
- Policy actors,
- Intermediaries

Pilot Action Events:

- 12.11.2013 - 13.11 2013 – Slovenian Forum for Innovations – Ljubljana, (50 participants),
- 22-23.01.2014 – Expert workshop – Kosice (20 participants),
- 25.03.2014 – Expert workshop – Bratislava,
- 15-16.04 2014 – Expert workshop – Ostrava Research and Innovation Centre of the Moravian-Silesian Wood Cluster (17 participants),
- 29.04 2014 – Expert workshop – Ostrava Research and Innovation Centre of the Moravian-Silesian Wood Cluster (18 participants)

CLUSTRAT

EUROPEAN REGIONAL
DEVELOPMENT FUND

Overall aim of PA was cross clustering and networking of stakeholders to design and offer advanced technology retrofit options, demonstrations, training and transfer of know-how of new concepts for zero energy buildings with renewable energy used.

Results:

- Benchmarking study for Slovakia about transformation of the old building into zero energy building + networking,
- International expert workshops – Kosice, Bratislava, Ostrava;
- Conference in Ostrava,
- Exchange of experiences,
- Elaboration of proposal for possible joint projects of networked stakeholders

Recommendations:

- the awareness raising and dissemination activities on the topic of ZEB,
- to improve cooperation between key players in the assessment of business conditions relating to heating system (heating and cooling system),
- ensure financing of the recovery plan of buildings and their transformation into nearly zero energy buildings
- increase in energy efficiency in public sector and households,
- implementation of special transnational actions to support energy renovation for households facing energy issues,
- Promotion of energy generation and distribution from renewable energy sources
